

Trilogy Audio Systems

Chameleon colour system*

Choose from five standard colour finishes or a custom colour of your own*

Five beautiful standard finishes

Each TrilogY Product is available in five beautiful standard finishes. These are:

1. **8C Red**
2. **Sunburst Yellow**
3. **Mediterraneo Blue**
4. **Iron Grey**
5. **Nero Carbonio**

A picture can say a thousand words but no image can show you just how high a standard each TrilogY Product chassis is finished too. The finish is strikingly beautiful, sumptuous, deep and will last a lifetime if properly looked after.

*incurs an additional charge

Chameleon Colour System*

For an additional (small) charge you can choose to order your TrilogY Product(s) in a custom colour of your choice, which we refer to as the 'Chameleon Colour System*'.

The choice of different colours is vast, which ensures a TrilogY Product or System can match any decor or environment, complimenting the space it sits in beautifully.

For help and advice on the 'Chameleon Colour System*', please speak to your nearest specialist TrilogY Dealer or Symmetry Audio.

What products are available?

Currently there are 3 different products available:
